¹Based on CLASP calculations using WIASRD PY 2002 data. The WIASRD PY 2002 data includes all registered individuals who exited the program between July 1, 2002 and June 30, 2003.

²The total of WIA participants is not equal to the sum of adults, dislocated workers, and youth as a small percentage of participants are dually enrolled.

³Includes both younger and older youth.

⁴Includes only adults and dislocated workers, as youth are not eligible for training.

⁵Textual representation of this data should follow the following format. 575,257 individuals exited WIA in the United States during PY 2002. Of those, 239,222 were served through the adult funding stream, 178,380 were served through the dislocated worker funding stream, and 164,222 were served through the youth funding stream. 203,255 adults and dislocated workers received training.

For more information contact Abbey Frank at (202) 906-8023 or afrank@clasp.org.
