

Impact of American Recovery and Reinvestment Act (ARRA) of 2009 on Child Care and Development Block Grant (CCDBG) Funding¹

Estimated State Allocations
CLASP calculations - February 13, 2009

The ARRA provides \$2 billion in funding for CCDBG. These are federal funds that do not require a state match. Included in the \$2 billion is \$255 million for quality improvement, of which \$93.6 million is targeted for activities to improve the quality of care for infants and toddlers.

¹ Economic recovery funds for child care will be allocated as CCDBG Discretionary funds and subject to the rules of that funding stream. Discretionary funds do not require a state match. According to CCDBG law, discretionary funds must be obligated (or legally committed) within two years and spent within three years. Discretionary expenditures are included in the 4 percent requirement for spending on quality initiatives. The bill specifies that \$2 billion in child care funding will be available through September 30, 2010. Portions of these funds may be allocated through FY 2009 and FY 2010 by HHS. The bill reserves approximately \$255 million for quality initiatives, including \$94 million to improve the quality of infant/toddler care. These funds are included in the \$2 billion allocated to states. Estimates of state allocations are based on estimated FFY 2009 CCDBG Funding Allocations (Prior to Appropriation), which are based on the previous Bush Administration's FY 2009 budget request and are subject to change (http://www.acf.hhs.gov/programs/ccb/law/allocations/current/state2009/2009allocations.htm).

² U.S. funding amounts do not equal the sum of state allocations shown here due to funding for territories, tribes, and technical assistance funds. By CCDBG law, 2 percent of Discretionary funds are allocated to Tribes and one half of 1 percent of Discretionary funds are allocated to Territories. Tribes are included in the distribution of Discretionary funds but do not receive funds targeted for quality expansion.
