Explanation: In FY 03, a number of states reported "adjustments" to prior year MOE reporting. In some instances, states made downward revisions in prior MOE reporting, and drew down TANF funds to reimburse themselves for "excess MOE". In official reporting, current year spending and adjustments for prior years are aggregated together, resulting in a net total less than actual FY 03 spending. This table disaggregates FY 03 spending from prior-year adjustments.
