

Head Start by the Numbers

Indiana

This fact sheet is based on the 2005 Program Information Report (PIR) data, which all Head Start programs are required to complete on an annual basis.¹ For more information on the PIR and national Head Start or Early Head Start data, see the "[Child Care and Early Education](http://www.clasp.org)" page at www.clasp.org.

Programs

Total number of programs: 53
 Number of Early Head Start programs: 14
 Number of preschool programs: 39
 Number of Migrant and Seasonal programs: 0

Total number of slots: 14,217
 ACF-funded slots: 14,181²
 Slots funded through other sources: 36³

Program options

	Indiana	U.S.
Center-based	91%	91%
Home-based	6%	5%
Family child care	0%	1%
Combination	2%	1%
Locally-designed	0%	1%

Operating schedule for center-based programs⁴

Participants

Total actual enrollment: 17,327⁵
 Number of children enrolled: 17,118
 Number of pregnant women enrolled: 209

Primary language spoken in the home

	Indiana	U.S.
English	91%	71%
Spanish	7%	24%
other	2%	5%

For children requiring care outside of Head Start hours
(includes all children, regardless of subsidy receipt)

Percent of children receiving a child care subsidy: 8%

Percent of children in Head Start programs operating at least eight hours per day: 14%

Staff

Total number of staff: 3,475

Total number of teachers: 638

Percent who left the program during the year: 20%

Percent of staff who are current or former Head Start parents: 21%

Average teacher salary: \$21,637⁹

Teacher Education Level

Endnotes

¹ Data includes all Head Start programs in the state, including Head Start preschool, Early Head Start, Migrant and Seasonal Head Start, and American Indian and Alaskan Native programs.

² Includes slots funded by the U.S. Department of Health and Human Services, Administration for Children and Families.

³ Includes slots funded by all sources other than ACF (for example, states or school districts).

⁴ The PIR defines “full-day” programs as those operating at least six hours per day and “part-day” programs as those operating less than six hours per day.

⁵ The PIR collects data on all children and pregnant women who enrolled at any point, including those who do not complete the year. Since some participants drop out during the program year and are replaced, the number of total actual participants exceeds the number of Head Start slots.

⁶ Percentages do not add up to 100 percent because persons of Hispanic ethnicity may be of any race. In 2005, race categories on the PIR were changed. The “Hispanic” category, previously included as a race category, was moved to a separate question that asks for the number of children and pregnant women who were of Hispanic origin, regardless of racial background. The high proportion of Head Start participants whose race is “unspecified” may reflect confusion about the new race and ethnicity categories.

⁷ The PIR includes all children who were enrolled in Head Start at any point during the program year, including those who dropped out before 45 days of enrollment, the time frame during which Head Start programs are required to provide medical and dental screenings.

⁸ “Up-to-date on immunizations” includes those children who are not on the schedule recommended for their age group but who have been brought up to date to the extent possible given the late start on their immunization schedule.

⁹ This average includes all programs in the state, including part-day programs, programs that operate for a short period of time such as Migrant and Seasonal Programs, and programs that may only operate for part of a week. Therefore, the range of teacher salaries may vary greatly throughout the state.
