No funds used for Individual Development Accounts or Two-Parent Formation

Note: According to ACF, states may report adjustments for prior years that may appear as "negative expenditures" in the current year. If such negative adjustments exceed current spending in a category, that category will show negative expenditures for the year. In most cases, this reflects changes in which funding stream expenditures are charged against, rather than real reductions in funds available for an activity. However, in some cases funds may have been recovered from a program or transferred back from SSBG or CCDBG to TANF. For the purposes of the tables, negative expenditures are included as reported by ACF. For the purposes of the charts, negative expenditures are treated as equal to zero, which may affect the percentages of spending attributed to other categories.
