

Rhode Island Head Start by the Numbers 2008 PIR Profile

October, 2009

This fact sheet is based on the 2008 Program Information Report (PIR) data, which all Head Start programs are required to complete on an annual basis.¹ For more information on the PIR and national Head Start or Early Head Start data, visit www.clasp.org.

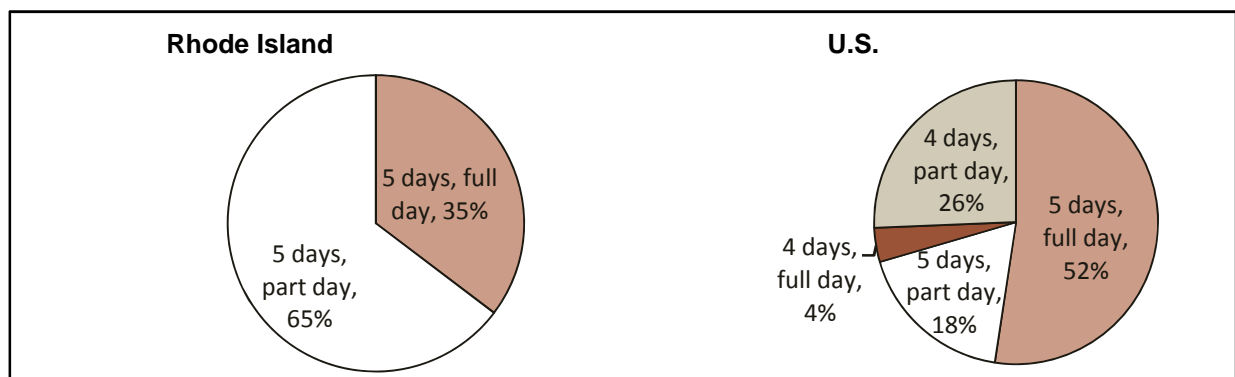

Programs

Total number grantees/delegates: ²	11
Early Head Start grantees/delegates:	5
Head Start (preschool) grantees/del:	6
Migrant/Seasonal grantees/del:	0
Total number of slots:	1,891 **
ACF-funded slots: ³	1,735 **
Slots funded through other sources: ⁴	156 **

Participants Served, by Program Option		
Program option	RI	U.S.
Center-based	77%	92%
Home-based	11%	5%
Family child care	12%	1%
Combination	0%	1%
Locally-designed	0%	1%

** The 2008 PIR does not include data on the 1,213 slots in Providence, due to a change in contractors operating the Head Start program. Thus this profile is not representative of the whole state.

Operating schedule for center-based programs⁵

Participants

Total actual enrollment: ⁶	2,607
Total children enrolled:	2,551
Total pregnant women enrolled:	56

Primary Language Spoken in the Home ⁷		
Language	RI	U.S.
English	84%	69%
Spanish	11%	26%
Middle Eastern and South Asian Languages	1%	1%
East Asian Languages	1%	1%
All other languages	2%	3%

Race and Ethnicity⁸

	RI	U.S.
White	60%	39%
Hispanic (any race)	21%	36%
Bi-Racial or Multi-Racial	16%	7%
Black or African American	10%	29%
Unspecified	9%	18%
Asian	3%	2%
American Indian or Alaskan Native	1%	4%
Other	1%	<1%
Native Hawaiian or other Pacific Islander	0%	1%

**Medical Screenings⁹**

Percent of enrolled children screened	94%
Of children screened, percent requiring follow-up treatment	22%
Of children requiring further treatment, percent receiving follow-up treatment	98%

Disability Services

Percent of enrolled children diagnosed as having a disability	18%
Of children with a disability, percent diagnosed during the program year	44%
Of children with a disability, percent diagnosed prior to this program year	56%

Access to Medical Services for Children¹⁰**Families**

Total Number of Families: 2,289

	RI	U.S.
Single-parent families	58%	57%
Two-parent families	42%	43%
Families with at least one employed parent	64%	70%
Families with at least one parent in school/job training	13%	13%
Families receiving TANF	44%	16%
Families receiving WIC	63%	52%

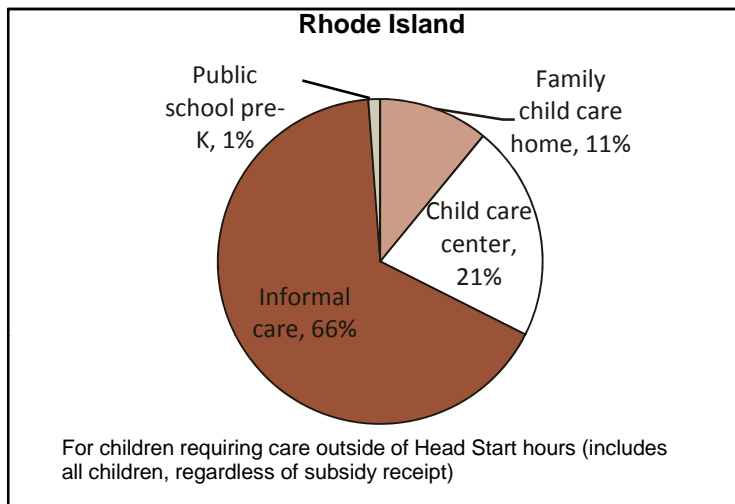

Head Start Family Services

<i>Percent of families who received:</i>	
Parenting education	63%
Health education	60%
Emergency/crisis intervention services	39%
Housing assistance	26%
Mental health services	22%
Transportation assistance	14%
Adult education	10%
Job training	6%
ESL services	5%

Percent of families who accessed at least one family service through Head Start: 88%

Child Care Arrangements¹¹

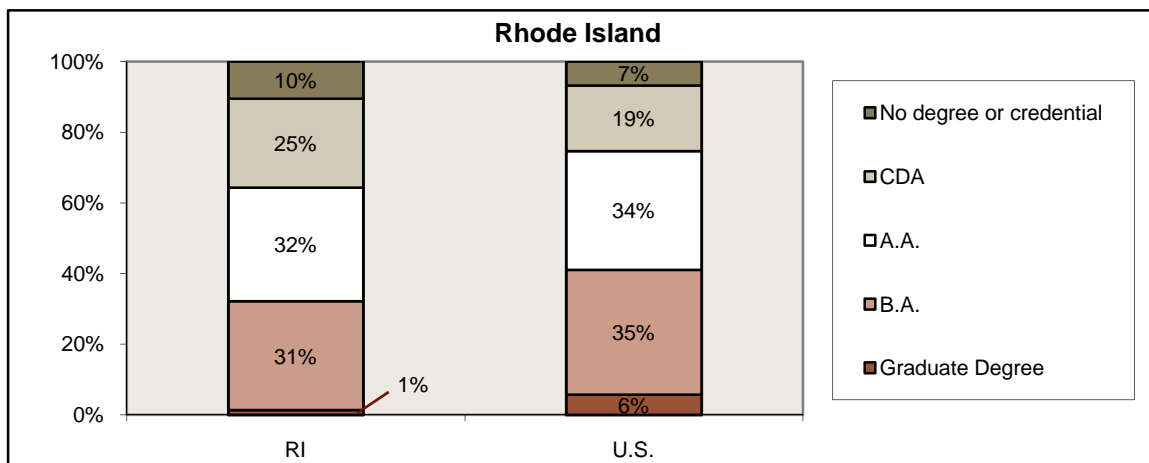

Percent of children receiving child care subsidy: 26%

Percent of children in Head Start programs operating at least 8 hours per day: 27%

Staff

Total number of staff:	542	Percent of staff who are current or former Head Start parents:	24%
Total number of teachers:	143	Average teacher salary: ¹²	\$27,206
Percent who left the program during the year:	13%		

Teacher Education Level¹³

Endnotes

¹ Data includes all Head Start programs in the state, including Head Start preschool, Early Head Start, Migrant and Seasonal Head Start, and American Indian and Alaskan Native programs.

² Each grantee and delegate agency must submit a separate PIR report annually. Further, programs operating Head Start and Early Head Start services must submit a separate report for the Head Start program and the Early Head Start program. Therefore, for the purposes of these PIR profiles, each Head Start, Early Head Start, and delegate agency is counted separately in the total number of grantees/delegates.

³ Includes slots funded by the U.S. Department of Health and Human Services, Administration for Children and Families.

⁴ Includes slots funded by all sources other than ACF (for example, states, local non-profits, private sector, school districts) that also report PIR data to the Office of Head Start. States may fund additional Head Start slots that may not be part of the federal reporting and PIR data collection process.

⁵ The PIR defines “full day” programs as those operating at least six hours per day and “part day” programs as those operating less than six hours per day. Percentages may not add to 100 percent due to rounding.

⁶ The PIR collects data on all children and pregnant women enrolled at any point, including those who do not complete the year. Since some participants drop out during the program year and are replaced, the number of total actual participants exceeds the number of Head Start slots.

⁷ Head Start collects data on various language groups. In 2008, across the United States, the PIR reported that the primary language spoken in the home for 69 percent of all Head Start participants was English and for 26 percent of all Head Start participants was Spanish. One percent or less of all participants were reported in each of the following primary language categories: Middle Eastern/South Asian languages, East Asian languages; European/Slavic languages; Native Central American, South American, and Mexican languages; Caribbean languages; Native North American/Alaskan Native languages; Pacific Island languages; and African languages. The primary language spoken in the home could also be reported as “other” or “unspecified,” and across the U.S., less than one percent of Head Start participants were reported in each of these categories.

⁸ Percentages do not add up to 100 percent because persons of Hispanic ethnicity may be of any race. In 2005, race categories on the PIR were changed. The “Hispanic” category, previously included as a race category, was moved to a separate question that asks for the number of children and pregnant women who were of Hispanic origin, regardless of racial background. Head Start participants whose race is “unspecified” may reflect these changes in race and ethnicity categories.

⁹ The PIR includes all children who were enrolled in Head Start at any point during the program year, including those who dropped out before 45 days of enrollment, the time frame during which Head Start programs are required to provide medical and dental screenings.

¹⁰ “Up-to-date on immunizations” includes those children who are not on the schedule recommended for their age group but who have been brought up to date to the extent possible given the late start on their immunization schedule.

¹¹ Percentages may not add to 100% due to rounding.

¹² This average includes all programs in the state, including part-day programs, programs that operate for a short period of time such as Migrant and Seasonal Programs, and programs that may only operate for part of a week. Therefore, the range of teacher salaries may vary greatly throughout the state.

¹³ Percentages may not add to 100% due to rounding.
