

The Trump Administration’s Public Charge Rule Could Impact 380,000 People in the Silver State

The Trump Administration has finalized its “public charge” rule, which would make it more difficult for immigrants to obtain a green card if they use any of a wide range of public benefits. If litigation does not prevent the rule from taking effect, the policy would become effective in **60 days on Tuesday, October 15, 2019**. The public charge rule would make—and has already made—immigrant families afraid to seek programs for which they are eligible and that help them stay strong, productive, and raise children who thrive.

By threatening immigration status when immigrants use programs to meet their family’s basic needs, the rule would make immigrant families in Nevada afraid to access programs—like health care and food assistance—that support essential needs. This fact sheet describes the potentially chilled population in the Silver State, including several counties facing the greatest impact.

NEVADA

Approximately **380,000** people, including **143,000** children, may be impacted.

NATIONWIDE

Approximately **26 million** people, including **9.2 million** children, may be impacted.

NEVADA COUNTIES FACING THE GREATEST IMPACT

County	Total Population	Estimated Number of Potentially Impacted	Estimated Share of County Population
Clark	2,070,000	309,000	15%
Washoe	440,000	51,000	12%
